

ACTIONPages

Gets Your Message Out There!

**Action Pages gets your ads where they need to be.
In your customers' hands.**

Action Pages requires all distributors to verify each book's delivery. How? We track each distributor on-route via GPS reports. These GPS reports pin locations every 5 to 10 seconds providing the most accurate tracking of door-to-door delivery available. We also require that our distributors collect materials from businesses visited (i.e. business cards, menus, etc.) to ensure each agent has made contact on-site. Then, we follow-up by calling individual homes & businesses in each delivery area to verify the newest Action Pages directory has arrived.

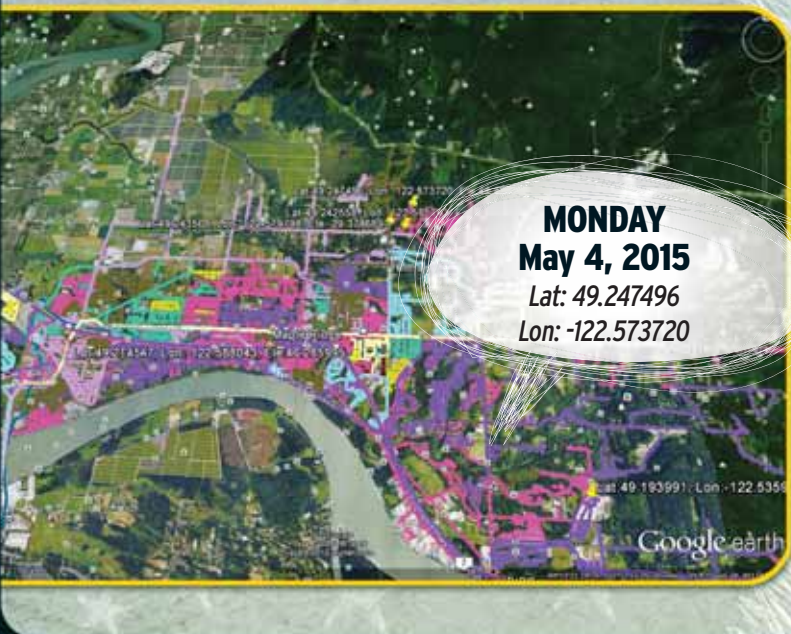

Action Pages ensures that the directory you advertise in arrives at the front doors of the homes and businesses of your future customers.
